Gerrans Parish Council
Affordable Housing Update
July 2023

The process of trying to identify suitable sites and funding avenues in order to provide much needed affordable housing in the Parish is very much ongoing, but the Parish Council's role is now one of liaison, as it is not in a legal position to be part of any commercial negotiations which might occur.

This project is now being managed by Roseland Community Land Trust, who are liaising with Cornwall Council's Affordable Housing Team to discuss the next steps in this process and applying for grant funding. We will be informed of progress but are unlikely to be actively involved further until pre-application documentation has been prepared.

We have not been informed of any particular sites which are under consideration at this stage.

In the meantime, anyone who would be seeking to apply for any housing that might become available should make sure they are registered with [Cornwall Council Homechoice](#)
